AXIA Consulting®

Business and Technology Simplified®

CAPABILITY STATEMENT

AXIA Consulting brings powerful technology and business expertise to its clients to identify and solve their most complex challenges. With a team of industry experts who have more than 20 years of experience working for nationally recognized consulting firms and more than a decade of experience successfully working in the government sector, our consultants are equipped to simplify and solve your toughest business and technology challenges with experience and knowledge.

AXIA Consulting was founded in 2005, with the mission of developing long-term relationships with organizations by offering high quality resources to address their most difficult IT and business process challenges.

CORE COMPETENCIES

Business Consulting

Creating efficient business operations is key to the success of your organization. Whether you are looking to optimize outdated processes, adapt to changing business environments or operate as a seamless entity after a merger or acquisition, AXIA has the business and technology expertise to improve your business practices and deliver bottom-line results.

- Client Advocacy
- Organizational Restructuring
- Program & Project Management
- Organizational Change Management
- Supply Chain, Finance and Customer Experience
- Business Strategy & Planning Support
- Human Capital Management

Technology Consulting

At AXIA, our seasoned consultants have the deep, hands on experience needed to overcome your technology challenges and get the most out of your technology investments. Our Technology Consulting practice provides counsel on all aspects of enterprise technology and assists with planning and deploying both infrastructural and technical platform solutions. AXIA is focused on maximizing your current IT investments while minimizing platform, labor and licensing costs.

- IT Strategy & Governance
- Software Selection & Procurement
- Enterprise Content Management
- Enterprise & Cloud Applications (Oracle, JD Edwards, SAP & Microsoft Dynamics)
- Application Integration and Optimization
- Business Intelligence & Analytics
- Human Capital Management

DIFFERENTIATORS

AXIA Consulting believes that the success of a project is a direct result of the individuals we assign to the project, which is why we focus on hiring and retaining top talent to ensure you receive consistent, high-quality service. Our team-based approached allows for an immediate and positive impact on the success of a project.

Problem Solvers: Our senior consultants create simple, intelligent and implementable solutions to your complex problems. By taking the time to understand your unique requirements, we're able to anticipate needs and quickly overcome unforeseen challenges that others cannot.

People Centric: The right people make all the difference in turning a project into a long-term relationship. That's why we're committed to hiring individuals with passion to deliver great work and excellent service.

Transparent: A consulting firm without the hype, we're 100% focused on providing meaningful results that maximize your investment.

Values-Driven: Our core values drive our business and inform the way we interact with colleagues and clients.

Local & Global: AXIA has years of hands-on experience delivering solutions in more than 54 countries across six continents. Global experience across industries, business processes, and technologies allows us to have an immediate and positive impact on clients.
